STAINLESS STEEL

As your stainless specialists, you can count on EMJ to process your order to the most exacting specifications and deliver it - on time, every time.

EMJ provides stainless materials for a full range of commercial and aerospace applications, and all materials are stocked to appropriate ASTM, ASME, MIL-T, AMS, and proprietary specifications. Specializing in: Long Products, Bar (round, square, and hex), Flat Bar (HRAP, and slit and edged), Tube (welded and seamless) in round, square, and rectangular. We also supply a wide variety of Stainless Plate and Forged Rings processed to size.

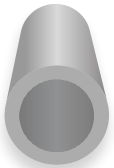

For service that never stops, call your local EMJ materials specialist.
